16 October 1998

MEMORANDUM FOR: Stephen Roberts
Chairman, Senior Steering Committee
Historical Imagery Declassification Review

SUBJECT: ☐ CIA Response on KH-7 Historical Imagery
Declassification

Steve

1. ☐ At the 9 July 1998 Historical Imagery Declassification Review (HIDR) Senior Steering Committee meeting, you asked CIA to come up with a final position on the issue of blanket declassification of KH-7 historical imagery as part of the broader KH-7 and KH-9 Historical Imagery Declassification Review process. CIA concurs with Intelligence Community (IC) proposal to recommend to the DCI that he approve blanket declassification of KH-7 historical imagery. We note the following for the record.

- Two area divisions of the CIA Directorate of Operations maintain their objections to the proposed blanket declassification of either KH-7 or KH-9 historical imagery.
- In concurring with the Community's recommendation to declassify all of KH-7 imagery, we emphasize that such case-specific acquiescence in no way suggests future CIA concurrence, or intent to concur, with blanket declassification proposals for any other historical satellite collection system.

☐
Member, Senior Steering Committee
Historical Imagery Declassification Review
